

# GROUP PROFILE

## Our History

Established in 1987, ENOIA is a multi-disciplinary and project management engineering company with a proven track record of 30 years in engineering excellence. The Group's global network includes engineering excellence centers in Athens, Cairo, Dubai and Chennai, in addition to local offices in Saudi Arabia, Kuwait, Lebanon and Abu Dhabi. ENOIA is structured in 3 sectors: Energy, Water/Infrastructure and Industrial, providing a comprehensive range of services in diverse markets and industries.

### Mission

*"We are a multi discipline engineering and development consultant with a global reach providing cutting edge solutions for Energy, Water/Infrastructure and Industrial Projects"*

### Vision

*"Sustainable and Innovative Engineering and Project Management Solutions"*

## Our Sectors

### ENERGY

- Oil and Gas
- Upstream Facilities
- Refineries
- Depots and Loading/Unloading Terminals
- Power Plants
- Renewable Energies

### WATER AND INFRASTRUCTURE

- Water Supply & Sanitation
- Water & Wastewater Treatment Plants
- Drainage systems
- Roads & Highways, Bridges, Tunnels\*
- Railways\*
- Ports\*
- Geotechnical Engineering\*
- Structural Engineering\*

*\* Provided together with our strategic partners*

### INDUSTRIAL

- Petrochemical Industry
- Hydrocarbons Processing and Natural Gas Industries
- Mineral Processing Plants
- Chemical Industry
- Automotive Industry
- Machinery Industry
- Industrial Cooling Water Systems

## Our Services

ENOIA is providing the full spectrum of services required for the implementation of a project, including:

- Project Management Consultancy (PMC)
- Engineering, Procurement and Construction Management (EPCM)
- Contract Management
- Pre-bid Engineering
- Value Engineering
- Feasibility Studies, Conceptual Design, Basic Design
- Front End Engineering Design-FEED, Preliminary Design
- Detailed Engineering (including 3D Modeling and construction/fabrication drawings)
- Procurement Services and Third Party Inspection
- Construction Management & Supervision Services
- Advanced Piping Consultancy Services (Fiberglass and other materials)
- Special Services: HAZID/HAZOP, HSE
- Machine Design solutions for manufacturing/automotive industry

## Quality Policy

It is the policy of ENOIA to provide services in compliance with customer's requirements, either specified or necessary for specified or intended use as well as with statutory and regulatory requirements. In pursuance of that policy, ENOIA implements a Quality Management System (QMS) according to ISO 9001:2008 requirements. The QMS provides the framework for the operation and control of the activities affecting the product realization and, consequently, Customer's satisfaction.
