OUR SECTORS

Energy

- Oil and Gas
- Upstream Facilities
- Refineries
- Depots and Loading/ Unloading Terminals
- Power Plants
- Renewable Energies

Water and Infrastructure

- Water Supply and Sanitation
- Water and Wastewater Treatment Plants
- Drainage Systems
- Roads and Highways, Bridges and Tunnels *
- GeoTechnical Engineering *
- Structural Engineering
- Railways *
- Ports *

* Provided together with our Strategic Partners

Industrial

- Chemical Industry
- Petrochemical Industry
- Hydrocarbons
 Processing and
 Natural Gas Industries
- Mineral Processing Plants
- Automotive Industry
- Machinery Industry
- Industrial Cooling Water Systems

OUR SERVICES

ENOIA is providing the full spectrum of services required for the implementation of a project, including:

- Project Management Consultancy (PMC)
- Engineering, Procurement and Construction Management (EPCM)
- Contract Management
- Pre-bid Engineering
- Value Engineering
- Feasibility Studies, Conceptual Design, Basic Design
- Front End Engineering Design-FEED, Preliminary Design
- Detailed Engineering (including 3D Modeling and construction/fabrication drawings)
- Procurement Services and Third Party Inspection
- Construction Management & Supervision Services
- Advanced Piping Consultancy Services (Fiberglass and other materials)
- Special Services: HAZID/HAZOP, HSE
- Machine Design solutions for manufacturing/automotive industry

OUR CLIENTS

ENOIA has been involved in major projects for Owners and/ or Contractors such as:

Owners

- AGOCO
- Akakus Oil Operations
- ARAMCO
- BP
- CAPW
- DELTA RUBIS
- DEPA
- DOW
- FARABI Petrochemicals
- HCWW
- Hellas Gold
- HELLENIC Petroleum
- KNPC
- KOC
- MARAFIQ
- Motor Oil Refineries
- NOPWASD
- Petroleum Development Oman-PDO
- QAFCO
- Qatar Petroleum
- QVC
- REPSOL Oil Operations
- SAHARA Petrochemicals
- SHELL

- TASNEE Petrochemicals
- TOTAL

Contractors

- AKTOR
- ANSALDO
- Arab Contractors
- Arabian Industries
- ARCHIRODON Blacke Durr
- C+P Ltd.
- CCC
- CCIC
- Cleaver Brooks
- Durr
- ESSAR
- FIS
- Foster Wheeler
- Hassan Allam Construction
- HEISCO
- Intershore
- J&P (Overseas)
- METKA
- Mokhtar Ibrahim
- NEM
- Pan Maritime
- PENSPEN

CASE STUDIES

NUAYYIM ASL CRUDE INCREMENT FACILITIES

Project Description

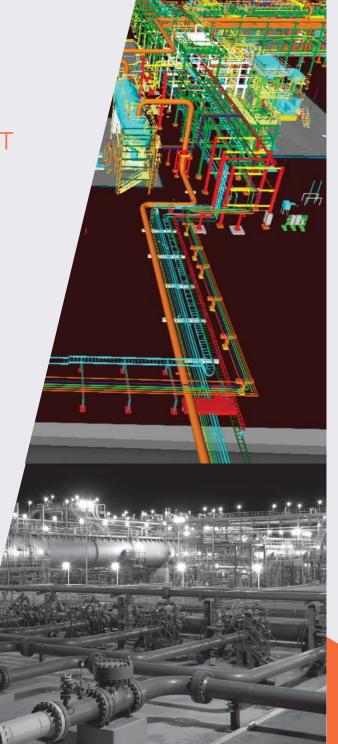

Installation of a grass roots facility to process an additional 100 MBOPD crude oil, expansion of existing capacity of Remote Injection Stations (RIS-A and RIS-C) and upgrading the facilities at Hawtah Stabilizer for additional crude degassing.

Client / Location

J&P - ARAMCO / SAUDI ARABIA

Scope

- Basic Design
- Detailed Engineering
- Procurement Services
- Construction Follow up

SKOURIES MINERAL PROCESSING PLANT

Project Description

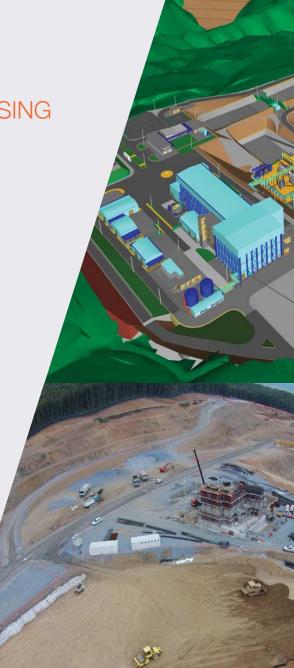

Installation of a Mineral Processing Plant (concentrator and associated facilities) for processing 8 million tpa of ore and producing copper concentrate and gold.

Client / Location

HELAS GOLD - ELDORADO / GREECE

Scope

- Project Management
- Basic Design
- Licensor coordination and follow-up
- FEED
- EPC tendering
- Procurement Services
- Construction Management & Supervision Services

AMRYA TREATMENT PLANT AND WASTE WATER COLLECTION SYSTEM (150.000 M3/D)

Project Description

Multi-disciplinary Engineering and Design for a new treatment plant and Waste Water collection system (150.000 M3/D).

Client / Location

Construction Authority for Potable Water and Wastewater (CAPW)
Financed by KFW (German Cooperation Agency)

Scope

- Project Management
- Construction Supervision
- Claims Analysis
- Variation Orders Approval

RAS LAFFAN COMMON COOLING WATER PROJECT

Project Description

This project comprises of a common seawater intake, cooling, distribution and discharge system to serve all existing and future industrial customers at Ras Laffan Industrial City (Qatar). It is considered as one of the biggest projects worldwide that involves fiberglass piping systems with diameters up to 4000 mm.

Client / Location

Qatar Petroleum

Scope

- Third Party FRP Consultancy Services
- Stress Analysis
- Finite Element Analysis
- Pipe Support Design

QUALITY POLICY

It is the policy of ENOIA to provide services in compliance with customer's requirements, either specified or necessary for specified or intended use as well as with statutory and regulatory requirements.

In pursuance of that policy, ENOIA implements a Quality Management System (QMS) according to ISO 9001:2008 requirements.

The QMS provides the framework for the operation and control of the activities affecting the product realization and, consequently, Customer's satisfaction.
